March 16, 2020

Dear Bob,

I wanted to thank you on behalf of F.E.S.T.I. (Fire and Emergency Services Training Institute) for installing your 2 Foot Candle/120 Minute Photoluminescent Running Man Signs, as well as your Egress Products in our Smoke Training Tower.

The 2 Foot Candle Signs are a great improvement over the 5 Foot Signs and are far better for Life Safety with a much better Luminance and Longevity. F.E.S.T.I. is very supportive of your Technology, and the ongoing efforts your Company continually makes to keep improving it.

As you probably already know, our main training institute facility has received the following awards:

- Award of Excellence – Green Building form Ontario Steel Design,
- Award of Merit from the Canadian Business,
- Empowering Innovative Excellence from National Research Council Canada,
- Leed Silver from Canada Green Building Council.

The new 2 Foot Candle/120 Minute Photoluminescent Running Man Signs are a perfect fit and example of FESTI and PL Solutions Inc. in keeping with our environment and keeping with the fast-moving times, always staying ahead of change. Let's not forget one of our primary purpose and goals is to support **saving Lives and Public SAFETY** through education and awareness.

Thank you for your continued support and professionalism.

Frank Lafond, CD, CFEI, CFII, CFO-III, CFSI-III, CMM-II
